Summary

Software developer with experience in full-stack development and building scalable, production-ready applications. Skilled in backend architecture, API development, and modern web technologies, with growing expertise in AI-driven features to enhance application functionality and user experience.

Education

STES's Sinhgad Institute of Management, Pune Master Of ComputerApplication (MCA) CGPA : 8.00/10	Oct 2024 – June 2026 Pune, Maharashtra
Deogiri Institute Of Technology And Management Studies , Chh. Sambhajinagar Bachelor of Computer Application (BCA) Percentage: 76.70%	Oct 2021 – June 2024 Chh. Sambhajinagar, Maharashtra

Technical Skills

Programming Languages: C, Java, Python, JavaScript, TypeScript

Frontend Technologies: HTML, CSS, Tailwind CSS, ShadCN UI, React.js, Next.js, Angular

Backend & APIs: Node.js, Express.js, REST APIs, WebSockets, Authentication (JWT, OAuth)

Databases & ORMs: MongoDB, PostgreSQL, MySQL , Prisma, Mongoose

State Management: Redux Toolkit, Zustand

Tools & Technologies: Git, GitHub, Docker, AWS (EC2, S3, IAM), CI/CD, Postman

Experience

MSquare Software Systems Pvt. Ltd. - Software Developer (April 2026 - Present)

- Developed and maintained enterprise applications using Angular, Node.js, Express.js, and MongoDB.
- Implemented Maker-Checker workflows, REST APIs, pagination, search, and role-based access control.
- Built and optimized backend APIs and MongoDB schemas for scalable application performance.
- Deployed features on UAT server and collaborated with QA teams for testing and bug resolution.

Stridemax.pvt.Ltd , Navi Mumbai - MERN Intern (Feb 2025 - Jun 2025)

Certificate

- Contributed to building and maintaining a **Next.js** application with secure authentication and responsive UI.
- Built **CRUD operations** for products with JWT-based authentication.
- worked on a real-time chat application using **Socket.io** .
- Developed a **full-featured Inventory Management** System using the MERN stack.

Projects

Study Notion – Ed-Tech Platform | React.js, Express.js, MongoDB, Mongoose, Cloudinary **[GitHub] [Live]**

- Built an Ed-Tech platform that allows students to enroll in courses and instructors to create and manage content.
- Developed **RESTful APIs** for course management, enrollment, and student progress tracking using Express.
- Integrated **Razorpay** payment gateway for **secure** and **seamless** course purchase transactions.
- Integrated cloud storage (e.g. **Cloudinary**) for hosting course **thumbnails** and **media files**.

DevOverflow - Q&A community platform | Next.js, Tailwind CSS, Shadcn , MongoDB, Mongoose **[GitHub] [Live]**

- Implemented **OAuth**-based authentication and authorization using **Google** and **GitHub** .
- Built a full-stack **Q&A platform** with features for posting questions, submitting answers, voting, etc...
- Integrated **Server Side Rendering** for seamless frontend-backend communication.
- Implemented user engagement features such as **upvotes**, views tracking, and content prioritization.
